Next Meeting

December Meeting/Christmas Party

The December meeting will be the Christmas party held with the Corridor Woodcrafters. It will be at the Antioch Christian Church in Marion running from 11: AM to 2:30PM on **Saturday, December 7th**. We will eat at Noon and then have a show and tell session and a drawing for the many door prizes the clubs have assembled for the event.

The clubs will supply the entrée items and members are asked to bring something to share and a glass or cup for your beverage.

Dues Renewal Time

The year has nearly gone and it is time to think about renewing your dues for 2014. Club dues are due January 1. Ongoing promotions and events have been successful so the dues remain at \$25 per person or \$30 for a family. At the end of the year the club has 61 paid members. Those who have paid by the start of the program for February will be eligible for a drawing to have their dues refunded. New membership cards will be issued starting with the March meeting. Please go to the web site and download a copy of the membership application /renewal form and bring it with you when paying your dues. Please make note of any changes from previous years. The form will help us prevent errors in crediting dues payments and allow updating of the membership database as required. Make checks payable to Corridor Woodturners and turn in your check and form to David Kesler. Showing your membership card will get a discount at many places turning supplies are sold including Acme Tools, Woodcraft and Woodsmith Stores.

The November meeting was held at the shop of Bill Kalkbrenner in Manchester. Bill and Harold Rosauer and the rest of the group from Manchester had the shop outfitted with six lathes and lots of good things to eat. I suspect Bill's wife had a lot to do with the latter. The topic was tops, the spinning kind, and Harold, Harvey Jeck and Greg Ellyson each gave a demonstration on how they turned them. Then all who wanted to give it a try picked out a lathe and went to work, with the demonstrators standing by to advise. Despite the fact that each demon-

strator had different ideas and techniques on how a top should be made, they were all good spinners.

All the members who gave top making a try put their creations in a hat and they were judged by the demonstra-

(Last Meeting Continued on page 7)

January Meeting

January's meeting will be at Tom and Stacy Nehl's shop and we will have demonstrations on hollowing tools and techniques.

From the President

2013 is shortly coming to an end and the December Corridor Woodturners/Corridor WoodCrafters Christmas Party will be a fitting close to the year. I hope you can find time to attend December 7, 2013 11:30 am to 2:30 pm – Eat at Noon. Please bring a dish to share and your own table setting and drinking cup/mug. The two clubs will supply the entrée items as well as the drinks. As last year, we have planned a show and share discussion, so please bring your latest creations. We will also have a raffle with Santa filling his bag with items for members as well as spouses and guests. Antioch Christian Church, Marion, Iowa is the location. See you there!

Bruce Kruse The January 9th CWT Meeting will NOT be at Leisure Living Construction in Hiawatha BUT instead will be at Tom and Stacy Nehl's Workshop 1008 Rolling Glen Marion, IA. **Bring your chair** as we will have a discussion / program covering – Hollowing and Hollowing Systems. Our January Project of the Month will be – TOPS!!!

I would like to personally thank Bill Kalkbrenner for hosting the November Meeting at his Manchester Workshop. Harold, Harvey and Greg put on an excellent presentation on turning tops. Plan to bring your version of a TOP to the January Meeting at Nehl's Woodshop.

I apologize for the situation during the ACME Tools Fall Sale. Apparently late in October/ Early November, ACME decided they would use the lathe with one of their vendors and we would not be needed. The word did not get out to us and thus we continued to promote the opportunity as a CWT promotional event. Thank you for coming to ACME Tools to support the CWT and then having to leave. We will look to the Spring Tool Sale and hopefully we will be able to use this upcoming event to promote the CWT.

As we have discussed before, the success of the CWT is based on your input and support.

??????????If you have any items you would like to show in the CWT Display at the Eastern Iowa Airport Display, please contact Kevin Bierman, David Kesler, Tom Nehl or me and we can get your item(s) in the display case.

??????????Still going on - Help fund the CWT through your Christmas Ornament creations – CWT is being allowed to sell ornaments from now until Christmas at the McGowan House in Marion. Please contact David Kesler with your items or drop them off at the McGowan House, 524 10th Street, Marion. There were 39 ornaments gathered at the November Meeting and any we sell put dollars into the CWT Treasury.

The CWT Board of Directors elected to postpone the December Board Meeting. The next Board Meeting will be in January – date to be announced.

I have learned a great deal of information regarding turning and I hope you have as well. www.corridorturners.org is a great promotional tool to convey information on the CWT. The CWT Facebook site is available as well for access to the club. David Kesler is our Webmaster/ Facebook administrator.

Don't forget to renew your CWT Membership. Membership form is posted on the CWT Website. Please submit the completed form with your payment to aid us in keeping track of the fees.

Stay Challenged and as Always,
Happy Turning and Happy New Year!!!! Bruce A. Kruse

McGowen House

If any of you have been turning ornaments this holiday season and have too many, consider donating them to the McGowen house for their sale. The club will receive 75% of the sale price, determined by McGowen House, and any remaining at the end of the season will be returned to the club and their makers. You can bring ornaments for donation to the Christmas Party or get them to David Kesler or take them directly to McGowen House and tell the folks there what they are for. At the time the tree was set up there were 39 ornaments available and some have been sold.

(Last Meeting Continued from page 1)

tors. David Tegler's top came out on "top", resulting in a prize of a very nice cherry burl for his efforts.

Every one who attended had a good time and gained experience either by turning a top or talking with other members about turning projects or techniques in the informal atmosphere in the shop. **The Project of the month for January will be Tops, all kinds and sizes.**
